Summary

CompSci undergraduate at Royal Holloway, University of London with a keen interest in various branches of software development. Always aspiring to enhance my skills, and open to work opportunities in software engineering and building digital projects

Experience

Web Developer

Capventures Pakistan (Pvt) Limited

Jun 2020 - Present (2 months +)

- Worked on design, build, testing, and deployment of the official website of the subsidiary company of Capventures, Mocca Coffee
- Coordination with many other employees for specifically required assets and illustrations, along with programming and project management with fellow developer
- Responsible for development of huge elements of the project, including landing page, menu, locations page. Working with only one other developer resulted in myself handling major decision and design choices, and holistically contributing to the project
- Optimized website for both desktop and mobile accessibility, by incorporating elements to adapt to all platforms (e.g collapsible navbar, auto-stacking buttons). Optimized for touch controls on mobile.
- Outside of programming, contributed on helping management in choosing domain name along with performing presentations and demos of the website to executives
- Extensively designed and built the UI & UX of the site, and adapted it based on feedback from clients
- Tested and refactored site for multiple mobile & desktop browsers

Development Intern

Plan9 - PITB's Tech Incubator

Aug 2017 - Aug 2017 (1 month)

In August of 2017, I worked as an intern in PITB's Technology Incubator, Plan9. I worked with the web development team and I also worked with various startups on their marketing and business development. During this time I learned HTML & CSS, and I gained first hand experience in web design, along with witnessing the growth of startup companies and their product strategies

Education

Royal Holloway, University of London

Bachelor of Science - BS, Computer Science

2019 - 2022

Licenses & Certifications

CS50 - Game Development - HarvardX
